THE SLA CONNECTOR.
YOUR *SECURE* CONNECTION TO INDUSTRY 4.0

With the SLA Connector a long-cherished wish of you becomes reality: Once installed, the program lets all your machines, robotics environments and databases speak the same language. And that's not all: The SLA Connector connects all production components to your ERP, regardless of which software you use. The SLA Connector automatically updates your devices, without any action on your part.

Industry 4.0 is as simple as that!

SAP® Certified
Integration with SAP NetWeaver®

ERP-systems

External systems & databases

SLA CONNECTOR

SLA
SIMPLY CLOSER.

SLA
SIMPLY CLOSER.

MORE DIGITAL MEANS:
MORE ECONOMICAL,
MORE EFFICIENT, MORE SECURE.

SLA exists because food production companies want a companion who leads them safely into the digital future. And because they want to take a good step forward in terms of efficiency, economy, food safety and production quality. As your IT partner, we take a close look at your production and logistics processes in order to finally optimize them with digital support. As individually as possible. With the integration of machines, robotics, RFID, mobile apps and other software and hardware solutions developed in-house for topics such as Smart Production and Overall Equipment Effectiveness.

THERE IS NO EASY WAY TO DIGITALIZATION.
BUT A SIMPLER ONE.

Don't be afraid of big changes: With SLA at your side, the step to digitalized production is easier. Because we develop a software environment that adapts to you - not the other way around. Because we are there for you 24 hours - every day. And because we prepare ourselves in many small steps: always very close to your needs.

24/7 SERVICE

WHAT YOU CAN EXPECT FROM THE DIGITALIZATION PARTNER AT YOUR SIDE.

WE FIND THE IT SOLUTION THAT SUITS YOU.
PROMISED.

Your company is not like all other companies - why should you choose software like all others? SLA develops tailor-made IT solutions for you and also uses finished products developed in-house. It couldn't be more individual and economical.

ALWAYS AS BIG OR SMALL AS YOU NEED US TO BE.

Whether you want to have a complete Smart Factory planned and set up ready for production - or whether you just want an intelligent partial solution that connects your shopfloor with the topfloor: We are with all our know-how and with all our hearts there for you.

ONE OF OUR MOST IMPORTANT SERVICES:
ASK QUESTIONS.

The more precisely a production and logistics environment is adapted to your individual situation, the more economical and efficient it will be. This is why we carry out an in-depth analysis of your wishes and requirements in the run-up to our planning. For us, good advice means above all: listening well.

HARDWARE PRODUCTS MADE FOR A
ROBUST WORKING ENVIRONMENT.

Our industrial computers, smart boxes and other peripherals are extremely intelligent, but also real workhorses. So that their valuable inner life is not damaged in working environments, all housings are shockproof, scratchproof and absolutely waterproof. So the hardware takes on every situation in your company.

OUR SOFTWARE PRODUCTS: PROGRAMMED FOR SUCCESS.

In addition to our unique SLA Connector and the apps, web platforms, RFID solutions, warehouse management systems, device managers, SAP and ERP solutions developed by us, we convince with know-how and years of experience in the food industry. And above all, by promising that our solutions will make you more successful.
