SLA CONNECTOR

The connecting miracle in production and logistics

SLA | **SAP** | **Microsoft** | **ORACLE JD EDWARDS** | **AND ALL OTHERS**

SLA CONNECTOR

- MACHINES & DEVICES
- KITCHEN
- ROBOTICS
- HARDWARE
- PERIPHERY
- WAREHOUSE
- WEB & APP
- ARTIFICIAL INTELLIGENCE

The worldwide unique **SLA CONNECTOR** connects all components in production and logistics with each other and with the ERP – in real-time and regardless of the manufacturer or model of each. This enables all to communicate with each other and carry out fully automatic actions.

- **Secure capture** of all device and process data
- **Data transmission** at the highest speed to where it's needed
- **Data buffering** in case of errors
- **Monitoring** of all processes on any end device
- Thanks to the **modular structure**: easy expansion with new devices
- Can handle more than **500** peripheral languages

✓ **More automation, control and transparency**

✓ **SAP® Certified** Integration with SAP NetWeaver®
